Summary

Junior Software Engineer with hands-on experience in building web and mobile applications, as well as software testing. Skilled in Java, Flutter, and Firebase, with practical experience in developing full systems including admin panels, real-time databases, and automation testing frameworks. Passionate about building scalable solutions and continuously improving both development and testing skills.

Skills

Soft Skills

Attention To Detail, Creativity, Problem Solving, Team Leadership, Time Management

Languages

Native Arabic

Very Good English

Technical Skills

- Programming Languages:

C++, Java, Python, JavaScript, SQL

- Web Development:

HTML, CSS

- Testing:

Manual Testing, Test Cases Design, Bug Reporting, SDLC, STLC Test Automation Fundamentals, Selenium

- Frameworks:

Flutter (Dart)

- Tools & Technologies:

Firebase, Git, Postman, IntelliJ IDEA

- AI & Productivity Tools

Prompt Engineering, AI-assisted Development & Testing, Generative AI Tools, Workflow Optimization using AI

Training Experience

Mobile Application Development Training

Aug 2025 – Sep 2025

Information Technology Institute (ITI)

- Gained hands-on experience in building cross-platform applications.
- Covered core topics including HTML, CSS, programming fundamentals, Flutter, and Firebase.
- Developed a practical project as part of the training.

Diploma in Professional Software Testing

Mar 2025 – May 2025

Ministry of Communications and Information Technology

- Specialized in Selenium for automated testing.
- Mastered manual testing techniques and defect tracking.

- Practiced test case creation and QA enhancement.

Projects

The Gym

Apr 2026 – May 2026

Offline Gym Management System

- Built a complete offline gym management system using Node.js, Express, and SQLite with Arabic RTL support.
- Implemented member management, subscription tracking, attendance system, and analytics dashboard.
- Added smart search, local data export/import, and an optional Electron desktop version.
- Provided a public beta demo version with simulated data for safe system testing and live feature exploration.

Expense Tracker

Mar 2026 – May 2026

Personal Finance Mobile App

- Developed a Flutter expense tracking application with Firebase integration.
- Implemented offline data storage, cloud sync, and Google Sign-In authentication.
- Added monthly reports, PDF export, and Arabic/English localization support.

Fashion Store

Nov 2025 – Jan 2026

Full Stack E-Commerce Web Application

- Developed a responsive e-commerce website using Firebase backend services.
- Built product management, search, filtering, and wishlist features.
- Implemented admin dashboard with authentication and role-based access control.

Personal Portfolio Website

Jun 2025 – Aug 2025

Portfolio Website with Admin Panel

- Developed a dynamic portfolio website fully managed via a custom Android admin app.
- Integrated Firebase (Realtime Database, Authentication, Cloud Functions, FCM, Storage).
- Implemented secure role-based access control ensuring only the owner can update content.
- Enabled real-time updates and notifications.

Sadaqa Mobile App

Mar 2025 – Apr 2025

Flutter Mobile Application

- Built a Flutter application integrated with Firebase.
- Implemented dynamic content and push notifications.
- Designed responsive UI and ensured smooth performance.

E-Commerce Testing Framework

Mar 2025 – May 2025

DEPI Graduation Project

- Developed an e-commerce automation testing framework using Java, Selenium, TestNG, and Maven.
- Implemented POM and automated core flows such as login, search, cart, and checkout.
- Generated professional HTML reports using ExtentReports.

Sadaqa Website

Nov 2024 – Dec 2024

Islamic Web Platform

- Developed a full-featured Islamic web platform (Azkar, Quran, prayer times, supplications, Tasbeeh).
- Built an admin panel for content, messages, and statistics management.
- Integrated Firebase (Realtime Database, Analytics, Cloud Messaging) for dynamic data and notifications.

Education

Bachelor of Computer Science and InformaticsSep 2024 – 2027 | Egypt

Zagazig University, Faculty of Computers and Informatics

Certificates

- Software Testing Diploma 
- HTML, CSS (ITI)
